

# The transient cylindrical probe method for determination of thermal parameters of earth materials (GeoSkrifter)

by Jan I Kristiansen

notice concerning copyright restrictions - GRC Geothermal Library J.I. Kristiansen The transient cylindrical probe method for determination of thermal parameters of earth materials. GeoSkrifter, Dept. Geology, Aarhus Univ (1982), Measurement of thermal conductivity and diffusivity in situ: Literature . Cím: The transient cylindrical probe method for determination of thermal parameters of Earth materials. Dokumentumtípus: Könyv (monografikus szint). Case Study of Olorunsogo Power Plant, Southwestern Nigeria The transient cylindrical probe method for determination of thermal parameters of earth materials. QE1 .G46 NO.18. Earth Sciences Library (Branner) Thermal structure of the deep Lopra-1/1A borehole in the . - ePIC Nov 10, 1991 . The parameters of the linear heat flow-heat production relationship ( $Q_r = 30 +$  of the Earth through stable cratons are discussed. 2. . Temperature was measured with a thermistor probe which material was insufficient, the cores were drilled in the . Two methods were used to calculate the heat flow. CiteSeerX — NAMES OF THE AUTHORS: EXAMINER OF THE Nov 4, 2005 . Kristiansen, J. I. The transient cylindrical probe method for determination of thermal parameters of earth materials. Geoskrifter, Aarhus Univ. GeoSkrifter in SearchWorks catalog Jan 20, 2017 . We employed a transient line source method (a needle probe with a diameter of 1.6 mm) for conductivity . Kristiansen, J I 1982 The transient cylindrical probe method for determination of thermal parameters of earth materials. Geoskrifter 18, Department of Geology, Aarhus University Google Scholar. Methods of measurement for semiconductor materials, process . conductivity of earth materials from the. Scandinavian parameter in the study of terrestrial heat flow and transient cylindrical probe method. In Swe- Sites of conductivity measurements and . delling in Denmark, GeoSkrifter 16,. 172 p. The transient cylindrical probe method for determination of thermal . The transient cylindrical probe method for determination of thermal parameters of earth materials [Ph.D. diss.]. Geoskrifter, 18, Dept. of Geology, Aarhus. soil physical properties in reclamation - ERA - University of Alberta A. E. BECK/Methods for Determining Thermal Conductivity and Thermal . tion of the Seismology and Physics of the Earth s Interior (IASPEI) in London, the geothermal parameters (thermal conductivity, thermal diffusivity, specific heat resistive element in an R-C circuit in the probe and measuring a frequency at the. erbas\_kemal.pdf A KD 2-Pro was used for the in situ measurement of thermal properties. .. J. I. Kristiansen, "The transient cylindrical probe method w: Moisture content for determination of thermal parameters of earth material," ?d : Dry density GeoSkrifter 18, Assessment of the Risk of Internal Erosion of Water Retaining . posite circular cylinder in an. i n f i n i t e medium of these lakes could be used to measure heat flow density for ore The transient cylindrical probe method for determination of thermal parameters of earth materials. GeoSkrifter,. 18, 154 pp A methodology for determining thermal properties of rocks - PDF morphic rocks, seismic methods, well-logging, hydrogeology, heat flow, fluid . Petrophysical properties of the Outokumpu Deep Drill Core and the surrounding . The combined interpretation of core data and in situ measure- Results based on inverse transient .. materials of the Outokumpu Deep Drilling Project, 1+. 6 p. In Situ Determination of Thermal Resistivity of . - DOCTIKTAK.COM Mar 25, 2008 . The transient cylindrical probe method for determination of thermal parameters of earth materials, GeoSkrifter 18, Laboratory of Geophysics,. Resistivity by Four Probe Method (Theory) : Solid State Physics . May 2, 2012 . It uses the transient line heat source method to measure the thermal diffusivity, specific heat .. J. I. Kristiansen, "The transient cylindrical probe method for determination of thermal parameters of earth material," GeoSkrifter 18, - Princeton University Library Catalog Search Results Jul 29, 2007 . compacted material which forms a system of large interconnecting voids. . permeability and erosion parameters like critical shear stress and Embankment dams with upstream earth core and downstream rockfill zone: The transient cylindrical probe method for determination of thermal GeoSkrifter. THE PHYSICAL DYNAMICS OF PATTERNED GROUND IN THE . In order to extend the classical divided bar method to measure thermal . By Monte Carlo inversion of the associated transient data set, thermal The needle probe, consisting of a thin cylinder containing a heating wire and a . material with known thermal properties. .. for determination of thermal parameters of earth. Heat flow and structure of the lithosphere in the . - AGU Publications 19. Okt. 2001 Kristiansen, 1982, The Transient Cylindrical Probe Method for Determination of Thermal. Parameters of Earth Materials: Geoskrifter, v. 18, p. In Situ Determination of Thermal Resistivity of Soil: Case . - Hindawi The transient cylindrical probe method for determination of thermal parameters of earth materials / by Jan I. Kristiansen. GeoSkrifter, 0105-824X no. 18 (1982) NEPR: A FORTRAN-77 program for determining thermal . such as thermal contact resistance and variations in probe parameters. In addition, the .. instance, the typical transient line or cylindrical source methods discussed below in many thermal parameters of earth materials: GeoSkrifter no. Laboratory measurements of rock thermal properties by needle . The transient cylindrical probe method for determination of thermal parameters of earth material. GeoSkrifter 18, Laboratory of Geophysics, Aarhus, Denmark, Full text of Soil physical properties in reclamation - Internet Archive Buy The transient cylindrical probe method for determination of thermal parameters of earth materials (GeoSkrifter) on Amazon.com ? FREE SHIPPING on Thermal propagation around heat supply pipes – Determining . Jul 7, 2006 . Thermal measuring results from the original Lopra-1 borehole were presented by .. Both the needle-probe transient line source technique and. Measurements of Thermal Parameters in Antarctic Snow and Firm . Oct 1, 2017 . Transient thermal response curve for a typical mesa diode on a 0.95-mm square . die attachment measurement of thermal properties of semicon- resistivity as measured by the four-probe method was

interrupted while. Download book PDF - Springer Link The transient cylindrical probe method for determination of thermal parameters of earth materials. Geoskrifter No. 18, Aarhus University, Department of Geology, The transient cylindrical probe method for determination of thermal . Determining thermal conductivity of soil specimens. Transfert procedure for measuring the thermal conductivity ? with a new half space linear probe method. Inversion of marine heat flow measurements by . - Oxford Journals [11] J. I. Kristiansen, "The transient cylindrical probe method for determination of thermal parameters of earth material," GeoSkrifter 18, Laboratory of Geophysics, In Situ Determination of Thermal Resistivity of Soil: Case Study of . ?May 2, 2012 . [11] J. I. Kristiansen, "The transient cylindrical probe method for determination of thermal parameters of earth material," GeoSkrifter 18 Effect of Pressure and Temperature on the Thermal Conductivity of . Kristiansen, J. I., 1982. The transient cylindrical probe method for determination of thermal parameters of earth materials. Geoskrifter 18: 1-154. Lachenbruch, A. In Situ Determination of Thermal Resistivity of Soil: Case . - Hindawi Thermal properties of frozen and unfrozen soils . Measurement of soil physical properties in the field is difficult subject to .. brought to the surface and/or surface materials incorporated into the subsurface. The transient cylindrical probe method for detennination of thennal parameters of earth materials. Geoskrifter No. GEOLOGICAL SURVEY OF FINLAND Special Paper 51 2011 . May 2, 2012 . "The transient cylindrical probe method for determination of thermal parameters of earth material," GeoSkrifter 18, Laboratory of Geophysics, References - Ocean Drilling Program 3, The transient cylindrical probe method for determination of thermal parameters of earth materials: GeoSkrifter no - Kristiansen - 1982 (Show Context). Citation ?DOCTORAL THESIS r O ] TEKNISKA LSI . - DiVA portal AIM. To determine the resistivity of semiconductors by Four probe Method. An oven is provided with a heater to heat the sample so that behavior of the sample is studied with The resistivity of material is uniform in the area of measurement. Inversion of marine heat flow measurements by expansion of the . Marine heat flow data, obtained with a Lister type probe, consists of two . needle probe measurements in material of known thermal conductivity show that the algorithm is robust and gives reliable results. The transient cylindrical probe method for determination of thermal parameters of earth materials. GeoSkrifter 18.
